Re: Domestic Manufacturing Locations for Tyler Union Waterworks Municipal, Potable, Reclaimed and Wastewater Fittings

Tyler Union Domestic made in the USA ductile and grey iron fittings are made with tested and traceable ASTM A536 ductile iron or ASTM A48 grey iron. Our Domestic line of AWWA fittings are wholly manufactured in the USA and therefore fully compliant with the ARRA ACT of 2009. Tyler Union provides these manufacturing locations for your reference and use for project submittals and/or general inquiries.
